

March 5, 2008

Dear Events Manager,

The issue of climate change continues to be a hot button issue. Climate change is such a big, complicated issue; it is hard for individuals to know what they can do about it. Jonathan Harrington, the author of the forthcoming book *The Climate Diet*, makes climate change understandable and shows readers how they can cut carbon, cut costs and save the planet.

I hope you will consider hosting a book signing event with Jonathan. With aggressive local media outreach, the event should be well attended and visitors will learn a lot. Jonathan also has public speaking experience and can show attendees his "bag of tricks" all of which help save the planet.

Jonathan is available for book signings once the book is out at the end of April.

Please contact me at your earliest convenience to schedule an event.

All the Best,

Kelly Spann
